Innovative Enhancements to Increase Productivity and Reliability

## SLS2000 Enhancements

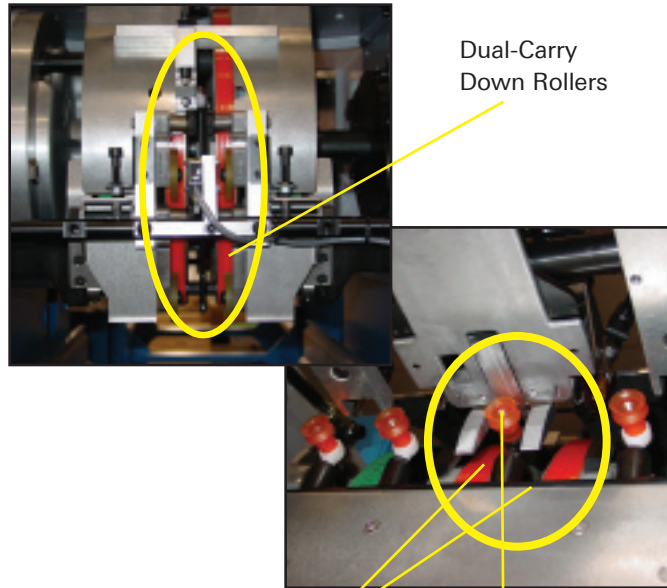

**Light Tower Upgrade -**  
**7712.8162 - One (1) per two-box**  
**7702.8529 - One (1) per feeder**

Provides separate indication of misses, doubles and on-line feeders giving clear fault indication to your operators. Also, with the on-line indication your zone transitions become quicker.

### SLS2000 Small Product Feeder - 7702.8498

Enhances the ability to run out of specification pieces as well as improving control when dropping thinner inserts.

Dual-Carry Down Rollers

Additional Carry Down Belts

Additional Sucker at Center of Pile
