## Enjoy the summer (despite everything)

Fortunately, the number of corona cases in Switzerland has plateaued at a low level in recent weeks. And luckily, we haven't had any serious corona illness at Muller Martini yet. We continue to follow the instructions given by the authorities, so we can ensure the health of our employees and customers in the gradual return to "normal" day-to-day working that is now imminent.

Much of what is in store for us in the coming weeks and months is still uncertain and difficult to plan. Be it the service visits to our international customers, which have become easier gain thanks to the easing of travel restrictions, the continuation of projects in the new machines business, drupa in April 2021 or – highly topical – the upcoming holiday season.

We hope you can enjoy the beautiful summer days despite the unusual circumstances this year. After our summer break, we'd like to welcome you back with up-to-date information and background reports from the industry.
